soing the Barraud heirs to clear the title to the property which the former have sold to various parties in lots. Commodore Barron left 750 acres of land in Nortak county, near Huntersville, now worth \$75,000 or more to D. C. Barraud, woh in turn left it to heirs now living in Richmond, and by whom it was in Richmond, and by whom it was sold under a judgment of court, which Cap-tain R. C. Marshall, of Portsmouth, pro-cured to W. H. Turner. Turner's heirs have divided the property into lots and sold the lots to a number of purchasers. They wish to sell more, but they are stopped because of the flaw in the deeds, which gives the Barraud heirs a title

to the property.

Judge Prentis decided the contested Judge Prentis decided the contested title suit in favor of the defendants. The effect of the decision is to give possession of the property to the Barraud heirs. Those who have bought lots from the Turners must either settle with the Barrauds or vacate the property. In case they prefer the latter, they can cottain commensation for improvements on the compensation for improvements on the property.

The case will be taken to the Court of Appeals, because the present tenants will not release without exhausting every legal means to maintain their position.

The case of Robert N. Harris, of Wilmington, is peculiar. He says that he is not of age: that his brother has charge of \$14,000 that belongs to him as an heir to his father's estate; that he didnet intend to steal and did not steal; not intend to steal and did not steal; that eh took 335 in money and the horse, because he was on a spree and was drunk. He consented to remain in custody here till his brother is satisfied. and has telegraphed to his brother, stat-ing where the horse and buggy are, and ing where the horse and buggy are, and has received an amiable answer.

Meantime the officer from Wilmington was on his way here to take Harris, a willing and contrite prisoner, to what promises to be a fatted calf and for-

iven at home. Harris has made friends among the the surgeon-general, and of the issue officers here by his candor, and by the manly way in which he confessed what was likely merely a boyish freak.
